Google · UX Designer (Contract), Emoji Team

July 2022–Present · via Magnit, BayOne

Interaction design · Design systems · Prototyping · Creative technology · AI fluency

- Maintained the emoji spec: a horizontal, cross-functional standard for Gboard, Meet, Gmail, Chat, and Android.
- Led 0→1 design of Emoji Kitchen in Search: 150,000 drawings browsable on the results page; 2x Webby Honoree.
- Reduced skin tone modulations by 90% with Global emoji skin tone, a cross-Google standard (2,000-person study).
- Partnered with PMs and engineers to ship Global emoji skin tone and Emoji Kitchen in Search.
- Built a Gemini pipeline that scores contrast and grades AI redraws for 4,000 emoji, guiding the Noto 3D redesign.
- Created an installation at Made by Google that mirrored viewers as Noto 3D Emoji mosaics. 7.5M+ projected reach.

The Cooper Union · Adjunct Professor

Sept. 2025–Present

Mentoring · Product design · Design systems · AI prototyping

- Teaching interdisciplinary art, engineering, and architecture students how to be AI native designers and technologists.
- Mentoring students in AI prototyping, product design, and design systems in weekly check-ins, critiques, and lectures.
- Designed and built eating.computer, the class's iOS and web app, with its own design system and authoring tools.

Freelance · Designer and Developer

Sept. 2018–Sept. 2025

Visual design · Motion · Product design · Frontend engineering

- Unicode Consortium, 2023–25: generative graphics and interactive demos from the Unicode Standard in WebGL.
- Rhoda Lubalin Fellowship, 2021–23: designed and built the full-stack archive and its CMS, plus a variable logo.
- Meso AI, 2024: MVP frontend and all UX for the earliest versions of Meso's flagship AI marketing product.
- Intra-Disciplinary Seminar, 2021–22: designed and built the site and color system for 24 talks; NYCxDesign talk.
- End of Year Shows, 2020–21: designed and built the online shows, 412 works in ten disciplines, with live cursors.
- Independent clients, 2018–22: sites and prototype apps, including a home-to-blueprint app for design with FRANK.
